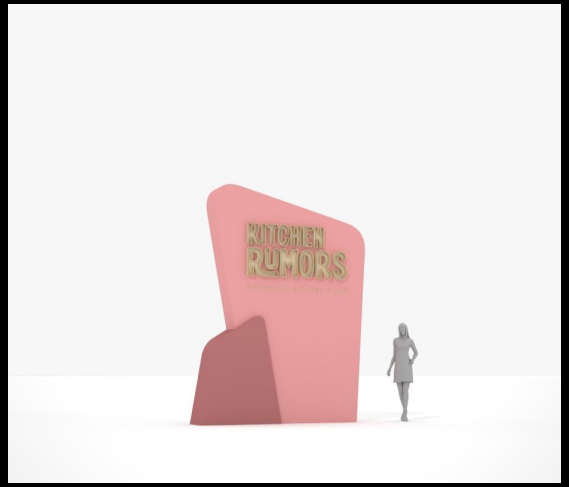
USER INPUTS + PROMPTING

PROMPT - MEDIA



V-RAY RENDER

INCLUDE A RENDER SHOWING MATERIAL, COLOR, MASSING, AND PROPORTIONS

ELEVATIONS

INCLUDE ELEVATIONS WITH DIMENSIONS AND SCALE PERSON FOR THE MODEL'S INTERPRETATION

SETTING/CONTEXT

INCLUDE A SETTING/CONTEXT IMAGE FOR WHERE THE SIGN WILL BE PLACED

PROMPT - TEXT

TYPICAL USER TEXT PROMPTS

CREATE A PROFESSIONAL ARCHITECTURAL RENDER OF THE DESIGN PROVIDED WITHIN THE CONTEXT/SETTING OF THE IMAGE PROVIDED

CREATE A NIGHT RENDER OF THIS DESIGN IN CONTEXT, PRESERVE THE SETTING/CONTEXT OF THE IMAGE. ONLY CHANGE THE TIME OF DAY.

PROMPT - S.O.P.

- *COLLECT ALL RELEVANT MEDIA FILES, COPY AND PASTE THEM INTO THE AI STUDIO PROMPT SECTION*
- *DRAFT TEXT PROMPTS (REGARDLESS OF LENGTH) IN AN EXTERNAL TEXT EDITOR TO AVOID MISTAKENLY RUNNING THE MODEL, ETC.*
- *THE MORE THOROUGH, DETAILED, AND ACCURATE THE TEXT PROMPT IS, THE BETTER THE RESULTS*
- *THE MODEL INTERPRETS NATURAL LANGUAGE EXTREMELY WELL, BUT ALWAYS (!!!) ENSURE TEXT PROMPTS ARE WELL-STRUCTURED, THOUGHTFUL, COMPLETE, AND WELL-WRITTEN*
- *GEMENI, NANOBANANA, ETC. ARE **NOT PHOTOSHOP**. IT SHOULD NOT BE TREATED THAT WAY (MINOR EDITS, REGIONAL MODIFICATIONS, ETC.) THE MODEL IS INTERPRETING THE SYSTEM INSTRUCTIONS, USER MEDIA, AND USER TEXT PROMPT.*

TROUBLESHOOTING, PRECAUTIONS, AND BEST PRACTICES

ACCURATE IMG. GEN.

- *IF THE FIRST IMAGE THE MODEL GENERATES IS CLOSE BUT NEEDS MODIFICATION, DO SO WITH TEXT PROMPTS. ALWAYS MAKE YOUR TEXT PROMPTS CLEAR, SENSIBLE, AND ENSURE ACCURATE SPELLING AND GRAMMAR*

- *IF AFTER AN ATTEMPT AT EDITING THE ORIGINAL IMAGE FAILS, ADDITIONAL STEPS MAY BE TAKEN TO ACHIEVE DESIRED RESULTS:*

    - *CREATE A NEW THREAD AND MIGRATE THE "BEST" GENERATED IMAGE FROM THE PREVIOUS THREAD TO THE NEW THREAD. DESCRIBE THE DESIRED CHANGES.*

    - *CREATE A NEW THREAD AND PROVIDE THE MODEL WITH THE ORIGINAL DOCUMENTS/IMAGES. AMEND THE TEXT PROMPT TO REFLECT THE DESIRED OUTCOME WITH EDITS.*

- *IN THE EVENT A GENERATION FAILS MULTIPLE TIMES, DO NOT CONTINUE TO TRY TO MODIFY THE IMAGE IN THE CURRENT THREAD. THE MODEL HAS ALREADY INGESTED THE USER-PROVIDED CONTEXT, AND MAY NOT BEHAVE AS DESIRED.*
